PROFESSIONAL SUMMARY

Final-year Software Development student (DSI) at ISET Djerba, building full-stack web applications with Laravel, Vue.js 3 and MySQL, with a growing focus on backend and REST API development. Two professional internships (BNA, TIFERT) plus five months delivering programming training to students in Python, HTML, CSS and JavaScript. Developing skills in cybersecurity, Docker and cloud/DevOps, and using AI-assisted development tools (Claude Code, ChatGPT). Seeking a PFE internship or junior software / backend developer position.

TECHNICAL SKILLS

Backend & APIs: Laravel, PHP, Python, Node.js, REST API design, API integration, CRUD operations, authentication and authorization, role-based access control, HTTP, JSON, MVC architecture

Frontend: Vue.js 3, React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Pinia, Blade

Databases: MySQL, PostgreSQL, MongoDB, Oracle PL/SQL (triggers, stored procedures, functions), relational database design, SQL

DevOps & Tools: Docker, Git, GitHub, Jira (Scrum/Agile)

AI-Assisted Development: Claude Code, ChatGPT — code generation, refactoring, debugging and documentation workflows

Other: JAVA, Flutter, WordPress

PROFESSIONAL EXPERIENCE

Software Development Intern — TIFERT (Tunisian Indian Fertilizers) | 6 – 31 January 2026

- Developed a Task Management application during a one-month internship in an industrial company, implementing CRUD operations, data persistence and the user interface with PHP and MySQL.
- Gained practical exposure to cloud technologies used in the company's professional IT environment.

IT Intern — BNA (Banque Nationale Agricole) | 6 – 31 January 2025

- Developed and integrated a web application during a one-month internship at Banque Nationale Agricole.
- Explored the organization's networking environment and IT infrastructure in a national banking context.

PROJECTS

Gym Management Application | Laravel (PHP), Blade, Vue.js | github.com/ah-med-sal-ah/GYMApp

- Built a gym management application to organize gym operations, combining a Laravel backend with Vue.js and Blade views.

Doctor Appointment Management Application | Laravel (PHP), Blade, Vue.js | github.com/ah-med-sal-ah/doctor-Management

- Developed a management application helping doctors organize medical-office activities and patient appointments, structured as a separate backend API consumed by a frontend client.

Learning Management System (MERN) | React, Node.js, Express, MongoDB, JWT | github.com/ah-med-sal-ah/LMS

- Full-stack LMS covering JWT authentication, role-based access control, course enrollment and progress tracking.

EDUCATION

ISET Djerba — Licence in Information Technology, Développement des Systèmes Informatiques (DSI) | Final Year

Relevant coursework: web development (PHP/Laravel, Vue.js), databases (MySQL, Oracle PL/SQL), OOP (C#/.NET), software engineering, Scrum project management.

CERTIFICATIONS & ACHIEVEMENTS

- Introduction to Cybersecurity — fundamentals of cyber threats, attacks and security practices.
- Mobile Development with Flutter — Orange Digital Center | WordPress — Coursera | Artificial Intelligence.
- IEEE Xtreme 2024 — participant in the global competitive programming challenge.
